Global Offshore Prospects

Thursday 16 February 2012

Lectures 1800 hrs Cheese & Wine 1930 hrs

Lecture Theatre 201, Skempton Building, Imperial College of Science, Exhibition Road, South Kensington, London, SW7

Chairman: Bob Allwood, CEO - SUT

Presenters: Douglas-Westwood Ltd
Steve Robertson (Director)
Rod Westwood (Manager)
Gouri Kumar (Senior Analyst)

The energy business has proved to be resilient over the last 12 months and certain sectors have in fact seen record levels of activity. Douglas-Westwood continue their renowned "Global Offshore Prospects" series of presentations with an evening event hosted by the Society of Underwater Technology.

Steve Robertson, Rod Westwood and Gouri Kumar will present the firm's outlook for the coming years and consider whether the offshore business will continue to build on the current buoyant position or whether the European sovereign debt crisis and threat of wider global economic downturn will start to be felt. Analysis will be drawn from the firm's published research and extensive proprietary in-house data, in addition to the insight and experience gained from the many advisory and transactions engagements completed throughout 2011. Specific sector focus will include offshore capex & operations, offshore drilling, subsea production and associated services and technology. Gouri will also provide an update on the latest outlook for marine renewable energy.
